WorldPass VIP Prepaid Phone Card -- CNMI

A prepaid card phone is a device which accepts from the customer a plastic card that is magnetically encrypted with a set monetary denomination (e.g., \$10) which the customer uses to pay for international direct distance dialed (IDDD) calls. The prepaid card phone subtracts the amount of each IDDD call from the original value of the card and indicates how much money remains on the card. The card phone will warn the customer when the card is about to run out of money and allows the customer to insert another card to avoid interruption of the call.

The rates in this section will apply to calls made from prepaid card phones in Saipan to countries and areas listed below and on the following tariff pages.

WorldPass Prepaid Phone Card

Pacifica's WorldPass Prepaid Phone Card allows a customer to prepay for International Direct Distance Dialed (IDDD) calls to foreign countries/locations from CNMI. When a customer purchases a WorldPass Prepaid Phone Card, an account associated with the card's unique identifying number is activated in a database. To make a call, the customer dials a specified toll free access number and inputs the card's unique identifying number and the destination telephone number. The customer is then notified of the number of minutes available, based on the account balance and the destination called. The charges for each IDDD call are deducted from the account balance associated with the WorldPass Prepaid Phone Card.

For calls to destinations listed below, the first 3 minutes or fraction thereof will be billed at the initial 3 minute rate. Each additional 3 minutes or fraction thereof will be billed at the additional 3 minute rate.

China's Peak and Off Peak Rates are as follows.

WorldPass Prepaid Phone Card -- Hawaii

Pacifica's WorldPass Prepaid Phone Card allows a customer to prepay for International Direct Distance Dialed (IDDD) calls to foreign countries/locations from Hawaii. When a customer purchases a WorldPass Prepaid Phone Card, an account associated with the card's unique identifying number is activated in a database. To make a call, the customer dials a specified toll free access number and inputs the card's unique identifying number and the destination telephone number. The customer is then notified of the number of minutes available, based on the account balance and the destination called. The charges for each IDDD call are deducted from the account balance associated with the WorldPass Prepaid Phone Card.

For calls to destinations below the first 3 minutes or fraction thereof will be billed at the initial 3 minute rate. Each additional 3 minutes or fraction thereof will be billed at the additional 3 minute rate.

WorldPass No Connection Fee Card

Pacifica's WorldPass No Connection Fee Card allows a customer to prepay for International Direct Distance Dialed (IDDD) calls to foreign countries/locations from the Commonwealth of the Northern Mariana Islands, Guam, and Hawaii. Use of this card is identical to the existing WorldPass Prepaid Phone Card. The only difference is in the rate structure. WorldPass No Connection Fee Card charges a fixed per minute rate for each call. The first minute or fraction thereof will be billed at the full per minute rate. Each additional minute or fraction thereof will be billed at the per minute rate. Cards rated by this method can be identified by the phrase "No Connection Fee" on the face of the card.

WorldPass Prepaid 5 Unit Phone Card -- CNMI

Pacifica's WorldPass Prepaid Phone Card allows a customer to prepay for Domestic and International Direct Distance Dialed (IDDD) calls to countries/locations from CNMI. When a customer purchases a WorldPass Prepaid Phone Card, an account associated with the card's unique identifying number is activated in a database. To make a call, the customer dials a specified toll free access number and inputs the card's unique identifying number and the destination telephone number. The customer is then notified of the number of minutes available, based on the account balance and the destination called. The charges for each IDDD call are deducted from the account balance associated with the WorldPass Prepaid Phone Card.

For calls to destinations listed below, the first 3 minutes or fraction thereof will be billed at the initial 3 minute rate. Each additional 3 minutes or fraction thereof will be billed at the additional 3 minute rate.

WorldPass Prepaid 5 Unit Phone Card -- Hawaii

Pacifica's WorldPass Prepaid Phone Card allows a customer to prepay for International Direct Distance Dialed (IDDD) calls to foreign countries/locations from Hawaii. When a customer purchases a WorldPass Prepaid Phone Card, an account associated with the card's unique identifying number is activated in a database. To make a call, the customer dials a specified toll free access number and inputs the card's unique identifying number and the destination telephone number. The customer is then notified of the number of minutes available, based on the account balance and the destination called. The charges for each IDDD call are deducted from the account balance associated with the WorldPass Prepaid Phone Card.

For calls to destinations below the first 3 minutes or fraction thereof will be billed at the initial 3 minute rate. Each additional 3 minutes or fraction thereof will be billed at the additional 3 minute rate.
